

Because of several changes now in the works at Braemar, the BMC is postponing our traditional December 1 start date for 2021 membership registration/ renewal.

Braemar has proposed a new league prepayment policy for next year and the new policy, if adopted, will significantly affect our registration process. This policy would apply to all leagues at Braemar and will be subject to city council approval, not expected until sometime in December. As a result, our BMC registration process needs to be postponed until the new changes are firmly in place. While we hope that we can open up registration by early January, we're on hold until we know more.

Expected Changes:

1. Braemar expects to require all leagues with assigned tee times to join the new prepayment program. As currently envisioned, several administrative details will be delegated to the affected leagues. At this time, several points remain to be worked out, including the timing and mechanics of prepayments.
2. Braemar will offer discounted greens fees as part of the prepayment program. The amounts of the discounts, among other details, are not yet final. To qualify, league members will need to obtain Players Cards, which will also be provided at a discount. We expect all BMC members to be obtaining their Players Cards through the BMC, rather than through Braemar.

In addition, we expect that all BMC members will need to obtain their GHIN handicapping services as part of their BMC membership registration, rather than through Braemar.

Once the details have been firmed up, we'll announce the date when registration for 2021 will open up.
